**Do you want the best available lighting equipment for your stage?
So do we!**

**We are offering you a great opportunity
to trade-in those old Source 4 incandescent fixtures.**

YOUR school, church, or stage could use an upgrade at a great price.

**Turn in your old S4 fixture body
(you keep the lens, and we'll take care of everything else),
and receive an exclusive deal on a new ETC S4 LED or ColorSource Spot V.**

**Do you have any Source 4s hanging around?
Upgrade now to have the best lighting available, at the best price.**

**Your old S4 fixture body + \$1779 = a new S4 LED Series 2
Your old S4 fixture & lens + \$2399 = a new S4 LED Series 3 & XDLT lens***

The Fine Print:

With the trade-in of a functional incandescent Source 4 Elliptical Reflector Spotlight, XS will sell you a new S4 LED Series 2 Fixture Body (Lustr, Tungsten HD or Daylight HD) for \$1779 each. This price including shipping to you, and return shipping of the old fixture body to us, utilizing the box in which the new LED fixture bodies arrived. We will provide you with return shipping labels, or do a swap for those that are local to XS.

The same trade-in deal is also available on the ETC ColorSource Spot V Fixture Body and would be \$1299.

*S4 LED Series 3 utilizes the new XDLT lens system, and is not easily configurable with existing lens tubes. With a similar degree trade in, 26°, 36°, 50° & 70° may be purchased for \$2399, 19° for \$2467, 10° & 14° for \$2514 and 5° for \$2814.

These prices do not include any applicable sales tax, however, if your organization is tax exempt, there will be no tax with the proper paperwork on file.

The new LED fixture body will ship with a powerCON cable, internal diffuser, and a pipe clamp (except CS Spot). You need to specify the connector (5-15 Edison, Stage Pin, or L5-20 Twist Lock) that you want on the new fixture.

The trade-in fixture need not have a working lamp, but should be otherwise functional, include a pipe clamp (except for CS Spot), shutter barrel and burner with some type of connector. If your facility utilizes an unusual connector, you can specify a bare-end to powerCON cable, and keep your connector to install on the new fixture's power cord.

You may also trade in 19°, 26°, 36° or 50° standard lens tubes toward the purchase of 19°, 26° or 36° EDLTs for an additional \$240 each, or on a 50° LED lens tubes for \$279 each. At these prices, one new lens per new fixture please.

~Shipping is included within the Continental United States.

~New fixtures come with a 5-Year Warranty, and 10-Year on the LED array.

Please allow XS Lighting to specify your ETC equipment and receive FREE Shipping
